Herish Chaniyara

Ethical hacker dedicated to strengthening cybersecurity defenses. Committed to identifying and mitigating vulnerabilities, I aim to contribute my skills and knowledge to enhance digital security. Eager to apply expertise at innovative organizations such as Microsoft, where cybersecurity excellence is paramount.

Experience

Data Analytics Internship, IBM

Nov 2023 - Dec 2023

Position: Intern

Accomplishments:

- Conducted a dynamic internship with IBM SkillsBuild, specializing in Data Analytics.
- Gained valuable insights into Data Analytics, Big Data, and the future of Data Analysis in real-world applications.
- Applied theoretical knowledge to solve real-world challenges, contributing to the team's objectives.
- Strengthened analytical, critical thinking, problem-solving, and communication skills.

Microsoft Learn Student Ambassadors, Microsoft

Nov 2023 - Present

Ambassador Program: Microsoft Learn Student Ambassador (Beta)

Responsibilities and Accomplishments:

- Collaborated with Microsoft to spearhead new tech learning as part of the MLSA Beta program.
- Actively engaged with the student community, resulting in increased awareness and participation through successful events and cloud skills challenges, contributing to the recognition of my college and university by Microsoft and other leading multinational corporations (MNCs).

Education

Government Engineering College, Modasa, Bachelor of Engineering (B.E.), class of 2025 (8.62 CGPA)

Major in Information Technology

- During Internship at St. Paul University, Fixed 300+ bugs on the website and implemented numerous enhancements to improve the overall user experience.

Samarpan Techno School, Higher Secondary Education, class of 2020 (88%)

Major in Science Stream

- At Samarpan Techno School, I completed my education from 9th to 12th grade.

Ramkrishna Vidhyabhavan, Elementary Education, class of 2016 (88%)

- At Ramkrishna Vidhyabhavan, I successfully completed my academic journey spanning 1st through 8th grade.

Skills

- Red Team Operations
- Penetration Testing
- Ethical Hacking
- Vulnerability Assessment
- Exploit Development
- Social Engineering
- Malware Analysis
- Network Security
- Web Application Security
- Python for Security
- Soft Skills (Communication, Collaboration, Adaptability)
- Project Management
- Leadership

Certifications

- CISSP, Ethical Hacking, Introduction to Cyber Security - SkillUp by SimpliLearn
- Cybersecurity Professional Certificate - Google (Coursera)
- Complete Ethical Hacking Masterclass: Go from Zero to Hero – Udemy (World's Biggest & Best Courses)
- Cyber Security Fundamentals (Advent of Cyber 2023) - TryHackMe
- Microsoft Learn Student Ambassador - Microsoft
